WHAT YOU NEED TO SUBMIT A RESOURCE

Before submitting a resource check to make sure the resource is not already in the library. Go to www.matecnetworks.org, click Advanced Search, set the field to URL and paste the URL into the box, and press enter.

To add a new resource, Log In under Submit Resources, click Add New Resource, and complete the following areas:

Title: Name of resource

URL: List the full address (including <http://>) where the resource is located

Description:

- What type of information does the resource contain
- Give suggestions for using the resource
- **Keywords:** List keywords you might use if you were looking for this resource (words that were not included in the description, e.g., if the resource is photovoltaic – keywords could be PV, photovoltaics, solar, green, renewable energy, etc.)

Contributor: Enter your full name for recognition

- Publisher of Resource – *if known*
- Creator of Resource – *if known*

Audience: Choose audiences that the resource is geared towards. To select multiple audiences, press and hold the Ctrl key and left click with the mouse.

Resource Type and Format are optional.

Any questions, contact Mark Viquesney at 480.731.8326 or mark.viquesney@domail.maricopa.edu
