## WHAT YOU NEED TO SUBMIT A RESOURCE

Before submitting a resource check to make sure the resource is not already in the library. Go to [www.matecnetworks.org](http://www.matecnetworks.org), click Advanced Search, set the field to URL and paste the URL into the box, and press enter.

To add a new resource, Log In at the top right corner, click Digital Library, click Add New Resource, and complete the following areas:

**Title:** Name of resource

**URL:** List the full address (including http://) where the resource is located

### Description:

- What type of information does the resource contain
- Give suggestions for using the resource
- **Keywords:** List keywords you might use if you were looking for this resource (words that were not included in the description, e.g., if the resource is photovoltaic – keywords could be PV, photovoltaics, solar, green, renewable energy, etc.)

**Contributor:** Enter your full name for recognition

- Publisher of Resource – *if known*
- Creator of Resource – *if known*

**Audience:** Choose audiences that the resource is geared towards. To select multiple audiences, press and hold the Ctrl key and left click with the mouse.

**Resource Type and Format are optional.**

Any questions, contact Mark Viquesney at 480.731.8326 or [mark.viquesney@domail.maricopa.edu](mailto:mark.viquesney@domail.maricopa.edu)
